

WELCOME TO BSC AGRICUTLURE

FARM FACT

- 200 Holstein Friesian Dairy cows.
- 200 breeding Ewes.
- 200 hectares of arable land.

Your journey starts here. The opportunities in agriculture are greater than ever before and this is your chance to put yourself at the forefront of the industry. From livestock health to crop production to agricultural mechanisation you will be learning in a modern environment that links everything you study back to industry.

You will be offered the opportunity to attend trips relating to your subject area which will reinforce your learning and get involved with social events on campus as well as meet with industry experts. I will look forward to seeing you all in September.

Ed Keyes
Course Manager for Agriculture
