

Welcome to FDSC WILDLIFE AND ENVIRONMENTAL CONSERVATION

This Foundation Degree will ignite your passion for the natural world and equip you with skills for a range of careers, from wildlife conservation to habitat management and ecological consultancy.

THE FDSC OFFERS A DIVERSE RANGE OF MODULES. HERE'S A SELECTION OF MODULES YOU CAN LOOK FORWARD TO IN YOUR FIRST YEAR:

Diversity of Life:

Exploring the evolution, classification, and ecological roles of various species.

Conservation & Wildlife Management:

Learning strategies and practices for managing wildlife populations and conserving biodiversity.

Ecological Conservation Skills:

Gaining practical skills for conducting ecological surveys and conservation projects.

Exciting adventures await you throughout the year!

From module-integrated day trips to study tours, there are numerous opportunities designed to equip you with practical field skills and real-world experience.

Stay tuned for more details coming your way this September!

**WE LOOK FORWARD TO MEETING ALL
OUR NEW STUDENTS IN SEPTEMBER
FOR WELCOME WEEK.**
