

Welcome to BSc Zoo Management!

Come September, we will all be back on campus starting your BSc Zoo Management journey! If you are a past FdSc Student, there will be some elements that seem similar but we will be looking at them in more detail. From Enclosure Design to Zoo Inspections, Research Projects to Marketing Campaigns, your BSc Zoo Journey will allow you to adapt and develop skills suitable for a zoo management position.

There will be a number of trips coming out across the year, from day trips relating to some of your modules and study tours that go further afield, so keep your eyes peeled on what's on offer for all UCAB students.

With you studying the BSc Zoo Management, there is the opportunity, towards the end of the year, to apply for a very exciting position at Flamingo Land as a Graduate Zoo Keeper Intern. This is a fantastic progression opportunity solely for UCAB BSc Zoo Management Graduates.

I look forward to seeing and meeting you all in September for our Welcome Week.

Ashley Dear
Course Manager for BSc Zoo Management

Wildlife Park Expansion

The expansion of the Wildlife Park continues with the development of the main corridor that now showcases some large display tanks. The park has also got some new species in including Emu, new rare breed pigs and a new possum in nocturnals.
