

Welcome to FdSc Adventure Sport

Come September, we will all be back on campus starting your FdSc Adventure Sport journey! Whether you're joining us straight from college or returning to education after some time away, you're about to begin an exciting and rewarding experience that combines practical outdoor adventure with academic study.

Over the next two years, you'll develop a wide range of skills and knowledge across the adventure sport industry. From climbing, paddlesports and expedition planning to leadership, coaching and outdoor education, you'll gain hands-on experience while exploring the theory that underpins professional practice. The course is designed to help you build confidence, develop your own leadership style and prepare for a range of exciting careers within the sector.

Throughout the year there will be plenty of opportunities to get out into the field, take part in practical sessions, visit industry-leading venues and work towards recognised qualifications that will enhance your employability. You'll also have the chance to learn alongside like-minded people who share your passion for the outdoors and adventure.

Whilst you've been enjoying your summer break, the Adventure Sport team has been busy updating course content, planning practical activities and developing new opportunities to ensure you have a fantastic experience from the moment you arrive. We're excited about the year ahead and can't wait to share our plans with you during Welcome Week.

In the meantime, enjoy the rest of your summer, get outdoors whenever you can, and start thinking about what you want to achieve during your time with us. We look forward to meeting you all in September and welcoming you to the Adventure Sport team.

The Adventure Sport Team
